Dear Committee Members,

We are writing this letter because we will be unable to attend your upcoming hearing in Durham.

Many years ago the Town of Durham resoundingly rejected a proposal for an oil refinery. The community felt that it would have a profound negative effect visually and environmentally on the historic pristine Durham Point area and the Great Bay Estuary.

We and many others believe that the Eversource proposal will have a similar negative effect. Of major concern is the visual impact of the new towers, the jet plowing across Little Bay and the impact to the area from the construction. We urge you to select another routing for the power lines.

Sincerely,

Jere Lundholm
