Subject: I support Eversource high voltage lines between Madbury and Portsmouth

Dear Ms. Monroe,

I am a resident of Greenland and I am writing to voice my support of the Eversource project to install high voltage transmission lines between Madbury and Portsmouth. Reliable access to energy is critical to the homes and businesses in our area and to the continued economic success of our region.

While there may never be a project plan that will please everyone, I understand that Eversource has made changes to its plan to accommodate concerns as much as possible. Please don't delay or stop this project because of a minority of outspoken opponents who will never be satisfied.

I urge the SEC to approve this project as soon as possible.

Regards,

Coleen Penacho
