Re: Northern Pass Project

Dear Ms. Mattfeld, Mr. Adams and Ms. Monroe:

First, I would appreciate knowing that this letter has been received.

This pertains to the wetlands permit application from **Northern Pass Transmission, LLC**, dated October 2015. We currently have no file number for this project.

At its meeting on September 24th the Bethlehem Conservation Commission decided to comment on the proposal and we'd appreciate you taking note of that. This is our only communication; I am not sending a copy through the mail.

Right now I'm proceeding under the state guidelines for comments on wetlands permits, which are the 14 days to let DES know we wish to comment and 40 days in which to submit those comments (from the time this is signed by our Town Clerk, which was October 15th). I understand that we have at least 105 days from some date in which to submit comments to the SEC.

This is a very confusing process, although Tim Drew did a good job of trying to explain it to me. If I should send this to someone else, or if the process is different, I would appreciate being informed.

Sincerely,

Cheryl Jensen, Chairperson
Bethlehem Conservation Commission
