Re: Rebuttal to Applicants Response and Objection to Certain Petitions to Intervene submitted to the SEC on February 26, 2016. Docket no. 2015-06 Northern Pass

Dear Ms. Monroe:

We respectfully object to the petition submitted by Northern Pass to nullify our petition to the NH Site Evaluation Committee to grant us status as Intervenors in the proceedings for Northern Pass.

The right of way (ROW) owned by Eversource bisects our property at 43 Gingerbread Rd. in Easton. "Alternative 2" as outlined in the draft EIS submitted by Northern Pass last July, in which the proposed transmission line would utilize that ROW, has not been officially withdrawn by the applicant. We therefore request that our status as Intervenors having a substantial interest in the project be recognized so that we may have a voice in the proceedings should Alternative 2 come back into consideration by NP.

Respectfully Submitted,
