Pamela G. Monroe, Administrator
New Hampshire Site Evaluation Committee
21 South Fruit Street, Suite 10
Concord NH 03301-2429

Dear Ms. Monroe:

We hereby respond and object to the Applicants' effort to limit the scope of our intervention and to combine it with the interventions of other abutting landowners as set forth in the Applicants' Response and Objection to Certain Petitions to Intervene dated February 26, 2016.

We filed a Petition to Intervene on February 4, 2016. In their Intervention Objection, the Applicants did not object to our Petition to Intervene, however, they attempt to limit our participation.

We are an "abutting landowner" to the proposed Northern Pass project. The proposed towers and power lines will run approximately 1200 feet over our hayfield and wetland. Furthermore the proposed transmission line parallels and will be visible for the full 850 feet along our road frontage.

Our interests will not be sufficiently represented by other abutting property owners. Nor will our interests be sufficiently represented by Counsel for the Public, as our Petition to Intervene is not based on how the Site Evaluation Committee's action will affect the public in general, but on how it will affect our property in particular.

Our participation in the proceedings will not be repetitive and will not impede the orderly and prompt conduct of the proceedings.

We incorporate in this rebuttal valid arguments presented by other Interveners that also pertain to our Petition to Intervene.

We respectfully request the SEC to overrule the Applicants' Response to our petition as an abutting landowner by granting us the right to intervene without the limitations sought by the Applicants. To combine our interests with those of others would limit our

procedural rights and would hinder our ability to protect our property effectively, which is our statutory right.

Respectfully Submitted,

Erick B Berglund Jr
