**Re: New Hampshire Site Evaluation Committee Docket No. 2015-06
Joint Application of Northern Pass Transmission LLC and Public Service Company
of New Hampshire d/b/a Eversource Energy for a Certificate of Site and Facility for
Construction of a New High Voltage Transmission Line in New Hampshire**

Dear Ms. Monroe:

A number of variously titled pleadings have been filed with the Site Evaluation Committee (“SEC” or “Subcommittee”) in the last two weeks seeking relief with respect to the Subcommittee’s June 23, 2016 Order on Pending Motions and Procedural Order. Such pleadings have been filed by the Towns of Bridgewater et al., the NGO Intervenors, the Grafton County Commissioners, the Society for Protection of New Hampshire Forests, and the New England Power Generators Association. In each case, the motion noted the Applicants’ assent but the characterization of that assent differed among the pleadings. This letter is intended to clarify that while the Applicants’ have assented to requests to propound data requests and/or extensions of time to do so, the assent in each case was subject to the overall limitation on a party’s number of data requests and extended only so far as a party has data requests remaining.

Please contact me directly should you have any questions.

Sincerely,

Rebecca Walkley for

Barry Needleman
