Subject: Northern Pass - Responses to LRAC and Conservation Commission Comments

Good afternoon -

Please find attached copies of Northern Pass responses to the comments NHDES received from municipal conservation commissions and local river advisory committees regarding the state wetland, Alteration of Terrain, and/or shoreland applications filed by Northern Pass. These responses are being sent directly to the municipalities and LRACs, as requested by NHDES, via U.S. mail. The attached letter responses also address NHDES information requests #23 and #24 of the SEC Docket 2015-06 DES Progress Report of May 16, 2016.

Please note that we have not provided a written response to the Raymond Conservation Commission letter, as this was just a request for additional review time. We did, however, accompany the Raymond Conservation Commission on a site walk on November 14, 2015 and attended a Raymond Conservation Commission meeting on November 18th, 2015. We addressed their questions at those meetings.

Please let me know if you have any questions!

Thanks

Lee
