Pamela G. Monroe, Administrator
New Hampshire Site Evaluation Committee
21 South Fruit Street, Suite 10
Concord, NH 03301-2429

Dear Ms. Monroe:

I respectfully request to intervene in the SEC's proceedings under Docket No. 2015-06 Northern Pass.

I live and own property in Thornton, NH and write a Keeping Each Other Well column for NH newspapers (Salmon Press). My research for my column includes both the health effects of

- Above-ground power lines, especially AC/DC parallel lines, and
- Inadequate offset of the carbon footprint created by Hydro Quebec for its power, through destruction of Quebec. I hope to guard against possible similar consequences to NH should this project be approved. (Please see my 1/11/16 Comment letter to SEC).

My concern is with the application of the New Hampshire Code of Administrative Rules: Chapter Env-A4700 Carbon Dioxide (CO₂) Offset Projects. My hope is that the SEC will require the Northern Pass to rigorously disclose its CO₂ Footprint, Monitoring and Verification forms.

Hydro Quebec has already demonstrated its disregard for the forest by ravishing its own province. HQ has destroyed trees, natural habitat, native cultures, fishing industry, wildlife, and tourism industry through Quebec's lax regulations. Quebec's damage is well documented. My concern is to see that NH does not suffer a similar onslaught to our forest by sanctioning the current NP, ecologically tragic, health toxic plan for NH.

Sincerely,

Elizabeth Terp
