Subject: Petition to Intervene, SEC Docket No. 2015-06
Importance: High

Dear Ms Monroe:

I respectfully request to intervene in the SEC's proceedings under Docket No. 2015-06 relating to the proposed Northern Pass transmission line. Per the SEC's regulations, I am sending this request to you, with copies to the SEC's distribution list for this proceeding as noted in the "cc" below.

Our particular rights, duties, privileges, immunities or other substantial interests that may be affected by the SEC's Northern Pass proceedings include the following:
I am interested as a direct abutter to the proposed project along the buried portion of the line as it passes down NH Route 116 in Franconia, NH. We live at 100 Church Street which is the local name of Route 116 within the village. Our house is close to the street and I believe that construction of this magnitude will have serious disturbing impacts on our property relating to the project's construction, and use. We have owned the house for 60 years. I will need to find out if there are any restrictive easements on our deed.

I may have other concerns that may arise as the construction plans are clarified and commence.

Thank you for your consideration of this petition.

Sincerely,

Carol Dwyer
