

Re: New Hampshire Site Evaluation Committee ("SEC") Docket No. 2015-06 Northern Pass
Petition to Intervene

Dear Ms. Monroe,

I respectfully request to intervene in the SEC's proceedings under Docket No. 2015-06 relating to the proposed Northern Pass transmission line. Per the SEC's regulations, I am sending this request to you, with copies to the SEC's distribution list for this proceeding as noted in the "cc" below.

My particular rights, duties, privileges, immunities or other substantial interests that may be affected by the SEC's Northern Pass proceedings include the following:

I own approximately twenty-one acres of land and a house located at 233 South Road in Bethlehem, New Hampshire. Being on the side of a hill, this property has very scenic views to the north-west. According to information on Northern Pass's website (www.northernpass.us), including a map of the proposed route and description of the proposed towers, it appears the aboveground portion of the proposed transmission line that is north of Route 302 in Bethlehem will be visible from my property (including from the front yard, porch and windows on the north-west side of the house). Based on available information, including statements made by realtors and even the author of a study cited by Northern Pass that were reported by local media (such as the New Hampshire Union Leader and New Hampshire Public Radio), I believe the potential visual impact of the proposed transmission line will adversely affect the value of the property I own in Bethlehem.

Thank you for your consideration of this petition.

Sincerely,

Andrew D.Dodge, Esq.
