Petition to Intervene

Dear Ms. Monroe,

I/ we respectfully request to intervene in the Site Evaluation Committee's proceedings under Docket Number 2015-06 relating to the proposed Northern Pass transmission line. As per SEC regulations, I am sending this request to you, with e copies to the SEC's distribution list for this proceeding as noted in the "cc" line.

My(our) particular right, duties, privileges, immunities or other substantial interests that may be affected by the SEC's Northern Pass proceedings include the following;

An easement on Land owned by the Percy Summer Club, of which I(we) am a property owner, directly crossed by the public utility line which is not designed for 130 foot, high voltage, multi-lined, galvanized steel towers, more than twice the height of existing poles;

No notice from Eversource to me (us) regarding use of ROW for Northern Pass towers and lines;

My(our) property (one of eight impacted by Northern Pass) sits on the western shore of Christine Lake;

Siting of towers along the southern shore of Christine Lake, a lake identified by the Society for the Protection of New Hampshire Forests as the "closest thing to a wilderness lake in the state" exceeding tree line, directly visible from my(our) property and the Lake;

Elevated structures will have a negative impact on the landscape on my(our) personal property, and the public enjoyment of Christine Lake and the surrounding mountains with visibility from Milan, Christine Lake, on the hills across the southern shore of Lake Christine, with all towers and lines projected above tree line;

Potential impact to the environment, protected through easements to the State of New Hampshire and the Forest Society of New Hampshire from the Percy Summer Club, affecting wildlife habitats, water quality, and scenic views surrounding Christine Lake, the Coos County mountains, and property of the Percy Summer Club.

I(we) request that we be granted the right to intervene in this docket. Thank you for your consideration of this petition.

Sincerely,
Susan E Percy
