Ms. Pamela G. Monroe, Administrator
New Hampshire Site Evaluation Committee
21 South Fruit Street, Suite 10
Concord, NH 03301-2429

Dear Ms. Monroe:

I am writing to petition for status as an intervenor in the application by Eversource related to their Northern Pass Transmission (NPT) project.

I live at Grandview Farm, located at 79 Herman Savage Road in Northumberland, on 280 acres that I own on the shoulder of Mt. Cabot. My land, which bounds the White Mountain National Forest to the east, is located in an area of potential visual impact from the NPT project. The view from my land of the New Hampshire and Vermont landscape to the far western horizon includes the proposed NPT route from North Road in Lancaster to Page Hill Road in Lancaster/Northumberland.

This view has noteworthy scenic quality, and includes a key observation point from the terminus of Herman Savage Road in front of my home.

I am concerned that my land's value has already been affected negatively by the proposed NPT project, based on statements included in a real estate appraisal that I obtained in the process of refinancing my mortgage since the proposed project was announced.

As I stated at the most recent Mountain View Grand hearing, I had been under the impression that I had already submitted a request such as this in the very early days of the designated time to do so, but then discovered to my dismay that I had not been included in the SEC's consideration of requests. Having reviewed the SEC's decision regarding intervenor status, it would appear that I would fall within the group designated as the "Non-Abuttor Property Owner: Stark to Bethlehem" group, if this petition is granted.

Sincerely,

Joseph T. Keenan
