for a Certificate of Site and Facility

**PEMIGEWASSET LOCAL RIVER ADVISORY COMMITTEE**  
**NOTICE OF CROSS-EXAMINATION**

October 2, 2017

In response to the Site Evaluation Committee Order dated September 12, 2017, the three-member panel of the Pemigewasset River Local Advisory Committee (PRLAC), intervenors in the above-mentioned docket, submits the following list of non-adverse witnesses and its scope of cross-examination. A second list will be submitted to the committee on or before October 13, 2017, the second deadline required under this Order.

PRLAC is well aware of the issues raised by the Applicant and the SEC regarding "friendly" cross-examination. It has been our intention throughout discovery, technical sessions and the adjudicatory hearings to elicit information and evidence relevant to the "full and true disclosure" of facts necessary to determine the fate of this application. PRLAC believes both adverse and non-adverse witnesses have equally valuable testimony to contribute.

In submitting this list of witnesses, PRLAC maintains its right of due process in these hearings. We retain the right to add and/or remove inquiry referenced in this list should there be developments in the record after the date of filing this notice. We retain the right to extend questioning should it become apparent that a more complete and true disclosure of facts could be reached in cross-examination.

As always, PRLAC will be cognizant of redundant and/or repetitious examination and avoid such instances.
