Subject: My answer

Dear Ms.Murray,

Please attach my e-mail to the rulemaking committee / project for Northern Pass (HydroQuebec, Eversource, Northern Utilities conglomerate).

Frankly, skip the rules and Just Say No to the whole destructive project !!! No burial of lines; no towers ; no Northern Pass in any way , shape , or form. Otherwise , Northern half of NH will turn into a 'ghost state.' There will be no tourism . There are no mills now. The wildlife that survives, will move into another state, probably N. Maine. No beautiful scenery. Just 'scorched earth !' Even the taxpayers will move out , due to no way to make a living, which is hard enough up here to find now.

Please pass my e-mail to all those in the state senate and state house.

Thank you, Henrietta H. of Lanc.
