**Subject:** Northern pass

Underground or not at all, ever. Our politicians are continuing to rear their ugly heads with greed and deceit. My rights as a landowner and taxpayer are just as important if not more, than Eversource investors. New Hampshire citizens have given it to allow the line to go in underground. A huge concession for us since the forests will be torn up and animals natural habitats will be destroyed. It is obvious the Governor and many of her associates are going to allow theirs to go through over head. The mere pittance of funding for jobs by the Northern Pass is an insult to my intelligence. New Hampshire politicians favoring this line. are nothing short of the Wall Street thieves. I want to see 155 foot tower placed ten feet next to each one of your homes. Wendy Doran Boston Ma
