Timothy Drew

Dear Timothy

I went to the meeting on Northern Pass in Laconia last week and forgot or failed to put my name in to speak -

I moved to New Hampton in 1958 got married in 1960 - we bought our farm on Blake Hill Road in 1961 and moved in in 1964 - the 40 foot poles on P&U or power line where never a problem to us - 80' and higher will be a real eye sore and take away from our great view of Bristol and Cardigan Mt. - I taught school for 8 years and then spent 34 years in the real estate business - 17 years a Broker and 17 years an appraiser. The proposed power ~~lines~~ lines will certainly Reduce the value of Real Estate that they pass through - To say otherwise is CRAZY - I call it fuzzy logic - we have enjoyed our view for 50 years and do not want to see it spoiled by power lines - BURY THE LIE

sincerely

John Casper Conkling, SRA President
