Subject: Northern Pass

Dear Pamela,

I wish to go on record as strongly opposing Northern Pass for many reasons including: not necessary for NH power; no economic value but economic loss because of the tourist and home owner effects from so many unsightly towers ruining the beauty of our state; secrecy and poor reputation of Hydro Quebec in dealing with clients and customers.

This state is beautiful and we need to protect it and be true stewards of the land. Many such projects are being fully buried but Hydro Quebec is always refusing or just offering a small insignificant portion for burial. I believe the answer to Hydro Quebec should be to bury the project and get out of New Hampshire!!

Thank you,

Harriet Forkey
