Subject: NORTHERN PASS

NORTHERN PASS has been a mistake since the get-go! We don't need this power, it is not green, it won't bring many jobs and it will destroy the beauty of our beautiful state. Hydro Quebec has a dubious business record as to how it uses and abuses its customers and they will do the same in New Hampshire. There should be no federal permit granted this company and the sooner the better the attempt to boondoggle our state is squashed.

Thank you,

Harriet Forkey
