Re: BURYING THE NORTHERN PASS

Dear Site Evaluation Committee,

I am wholly opposed to the Eversource project known as the Northern Pass. If it were within my power I would prohibit the entire project in its entirety. Burying all the lines is the ONLY OPTION.

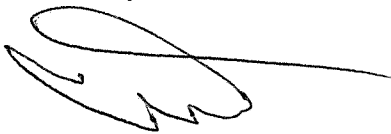

I am a NH resident and have been with my family for over 40 years. Not only have I been a NH Tax Payer I have worked directly for NH Tax payers for the last 15 years. This project would be a BLIGHT on our landscape, livelihood and community. NH is known for many wonderful things, not the least of all is its NATURAL BEAUTY. Quite frankly if these towers were built it would BREAK MY HEART.

This project as proposed by Eversource will cause irreparable damage to NH, its tourism, its natural beauty, and its people. I will never back down against this. I cannot in good conscience stand by in silence as this presents itself to me, in my home and in front of my family. As I write this letter support for this cause continues to grow. I will never stop supporting this cause.

BURY THE LINE. WE SAY NO TO THE NORTHERN PASS.

I'd like to thank you the SEC and anyone else who took the time to read this letter. I may be contacted by mail at my address or any of the phone numbers below.

Sincerely,

A handwritten signature in black ink, appearing to read "Victor Demeroto". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Victor Demeroto
