Subject: Northern Pass Project

I am writing to express my support for the Northern Pass project. I am impressed with the thoughtful nature in which the companies involved have worked with local communities along the route to listen to their concerns and adjust plans accordingly. This good faith effort is rare in this day and age and should be applauded.

Above and beyond being a good neighbor and partner to the communities, Northern Pass will bring additional, and much needed, energy to the region which will reduce energy costs on New Hampshire families. Even more, it will help reduce the local tax burden by paying an additional \$30 million in tax revenue to our state and local communities. The benefits of the project are far too much to list in a letter to the newspaper, so I urge each of you to visit www.northernpass.us and read the Forward NH Plan and join me in supporting this effort.
