Subject: Northern Pass SEC meeting

Hi Martin,

We are not writing today about barn business, but about our concerns with the Northern Pass Application.

As I am sure you are aware, we are not big fans of this project.

Please consider our thoughts regarding the completeness of this application. We have been working alongside the NH Forest Society and supporting their efforts in protecting our beautiful state and our farm property as well. With the current litigation, we hope you will consider this application "incomplete".

Thank you,
Craig and Corinne Pullen
