Hello,

I would like to inform you that I feel the Northern Pass is not going to really help our state of New Hampshire.

The "jobs" will be short term..if they even hire New Hampshire people. Mostly they will bring in their own professional help and construct the towers off site. Only the land being disturbed and spoiled will include the local people.

This is should be a BURY ONLY, All of the Pass if it should go through our state.

We all love our state because of its Beauty. Once we have spoiled the views and the mountain ranges, land and towns.

The people in our state can not regain this land and awesome views....it is Gone Forever.

Please, please consider this as you look over all that paperwork.

Bury the Pass..Or Dismiss those Private Greedy Companies and their project.  
Our New Hampshire and it's people deserve this!

Thank You.
