Subject:

Dear Mr. Drew

I am currently a college student in North Carolina. I was born and raised in Merrimack County. I have lived in Canterbury my entire life and I am registered to vote there. During the summers, I have returned to live and work there. My parents were both employees of Merrimack County.

I am writing to voice my objection to the currently proposed plan for the Northern Pass which would bisect Merrimack County via visually objectionable overhead power transmission lines and otherwise contaminate this wonderful area.

I strongly urge Eversource to embrace the alternative plan of installing all of the power transmission lines underground.

Sincerely,
Lillian Kate Johnson
