Subject: northern pass

I am against the Northern Pass. If Northern Pass were interested in what the people of New Hampshire wanted, they would not have submitted another plan that has so much overhead line. The way there plan stands as of now, it will come out of the ground right by my property making it unusable for what I purchased the land for in the first place. Even with the small amount of line they offer to bury, so many land owners and even tourists will be affected by this in a negative way. New Hampshire is a small state and holds a lot of beauty which is irreplaceable once it has been ruined. Please do not let Northern Pass do as they please. They are clearly in it for themselves.

I would like my comment to be made part of the record for the Northern Pass docket
