Subject: Northern Pass

Dear Mr. Honigberg:

I am writing in opposition to the current Northern Pass proposal. I cannot express my sentiments better than Jennifer Goodman of the New Hampshire Preservation Alliance, who said

“Our New Hampshire landscape is as historic as it is beautiful. Generations have supported the preservation and protection of our river and mountain views, village centers, stone walls, old barns and scenic roads. These are at the heart of our identity as a state.”

The only acceptable solution is to have the entire length of the line buried. Any other proposal should be rejected as dismissive of the interests of the people of New Hampshire and treacherous to the future of our precious resources.

Very truly yours,

Maureen McCanty
