**Subject:** Northern Pass

Hello,

Just a few words. I am not against Northern Pass but do not want to see power lines from my apartment window. I am in favor of the Pass if it is entirely buried. This would not only protect our beautiful, scenic state but in the long run would be more cost effective. If all is buried it would element a lot of repair work during and after storms which would be a savings. The other plus in having the lines buried would be less interruption of service during storms.

Will be at the meeting on March 10th to support this view. Thank you for letting me have my say.

Sincerely Joan Ramsay  
Concord, NH
