COMMENTERWORDS

I have been to the Northern Pass meetings and find it difficult to believe what we have been told. We're supposed to get a whopping 5% savings yet the power is going out of state? What will that savings look like after 2,3,or 5 yrs.

My heart goes out to my friends and neighbors who's land abuts the proposed transmission line. The major land clearing that goes along with such a huge project will have such a devastating impact on not only the environment but the whole town.

Please listen to the people who are being affected by this project and Bury the lines.

Sincerely,
Don Boyle
