Subject: Northern pass

My name is Rodger Matthewman and in live in New Hampton N.H. While I am not against the power line coming through our state I am totally against it being aerial especially in the north country. My wife and I have owned real estate in Pittsburg and are exploring the purchase of house in Stewartstown but are very concerned about the Pass being aerial. This house would be looking straight at it coming toward us. We have spent years in the north country snowmobiling , 4wheeling ,fishing and hunting.. I would hate to see NH lose one of its biggest assets.

Rodger and Maryly Matthewman
