Dear Ms. Monroe,

Please put me on record as being totally against Northern Pass . That includes towers and trenches. NNH only has tourism left in our economy. With towers and trenches , within 3-5 yrs. , our tourism will be gone too. The North Country will be an ugly , dead-looking, dead economically place. The people here will leave , with no way to make a living . Tourists will not come.

You can see where this has happened in Quebec Province , where for many yrs. there has been many, many 135 ft. towers in place.

There is NO NEED for N.Pass , except to line the pockets of the VIPs pushing it - HydroQuebec , Eversource , and the Gov't. of the Province of Quebec . I can't help but feel this is 'payback time' from Quebec for the Americans in the 1970's that shut down the Thetford Asbestos Mine in Quebec Province.  
We must stop N.Pass !

Henrietta Howard in Lancaster, NH
