New Hampshire Site Evaluation Committee
Pamela G. Monroe, Administrator
21 South Fruit Street, Suite 10
Concord, New Hampshire 03301

To the members of N.H. Site Evaluation Committee:

We would ask you to set aside your employment, titles and loyalties and evaluate the Northern Pass Project from our common interests as ordinary citizens of the State of New Hampshire.

Northern Pass

- ① The Best Outcome
NO NORTHERN PASS
- ② The only reasonable compromise
BURY THE ENTIRE ROUTE

Reasons for the SEC to approve

① or ②

- a.) N.H. doesn't need or will get any of this electricity
- b.) the only jobs created will be temporary.

- c.) all agreed assessment between the towns and the power companies will be contested in 2-3 years by the power companies as the companies always due in this state.
- d.) continued lying by Kurtherow Pass started at the beginning of this process and still going on.
- e.) Quebec Hydro has unbelievable monetary resources
- f.) The state of Connecticut doesn't allow high towers - yet they want the electricity.
- g.) The entire project is all greed and lies.

There are many more reasons, I'm sure you've heard them all.

Please base your decision on all the reasons why you wouldn't want to live next to or in sight of this project.

The best decision — STOP IT!

The next best decision BURY IT — the technology is there and the cost is very manageable for those companies!

Sincerely,

John & Lu Bradeen
