

I am writing to make my voice heard. I wholeheartedly reject the Northern Pass. It is wrong for the environment, the people and wild life of New Hampshire and the economy. We need to find another solution. I can not believe this is even an option. How could anyone do this to this beautiful land? Once this happens it can not be taken back. Please take it seriously as so much is at stake. Money is not everything!!!

I realized I did not sign my e-mail to make it official. I, Amanda Slack, am against the Northern Pass.
