Subject: Northern pass

Dear Ms. Monroe,

I am writing to you in regards to docket # 2015-06 , the Northern Pass project. As a NH citizen I need the NH Site Evaluation Committee to know that Northern Pass is NOT good for NH . The power will not be for us, but for the lower NE states. They demand more power. What ever happened to conserving power and cutting back on energy use ?We hear no talk of this. This project will be at the expense of NH's scenic, historic and cultural beauty. Why impose these scars upon our state to benefit greedy consumers and big money producers who stand to make HUGE profits from this plan ?? We do not need it and we do not want it. If a compromise should be made, then let the developers bury the line.....they can afford to do so !!

Thank you for your consideration,

Sincerely, Elizabeth Thomas
