Subject: RE: Northern Pass - Appropriate Use of Distribution List

Mr. Iacopino,

I'd just like to state for the record that I was aware this was going to the entire distribution list. My words, my position and my fortitude in this matter do not change based on the audience. I have no qualms about reiterating what I've been saying in a myriad of communications for all involved in this docket. The fact that the SEC accepted this application and is wasting MY tax dollars with such foolishness makes it imperative that I take advantage of all opportunities I have to speak the truth.

I'm certain you and the other (reduced number of) committee members are bombarded and even overwhelmed by the amount of correspondence docket 2015-06 has brought you. You'll get no sympathy from me, however. The application was incomplete when filed. The project is not NEEDED in New Hampshire. Whatever bribes and promises passed between EverSource, Hydro-Quebec, the IBEW and Governor Hassan or other elected or appointed officials that resulted in the closed-door (out of the public eye and ear) discussion that resulted in the SEC's hasty acceptance of this application should be exposed and that decision reversed.

Whatever monies the state and each and every intervenor on this docket have spent should be reimbursed by the applicant and the project denied. It is beyond the capability of the committee with the rules it is bound by and because it's an elective, for-profit-only proposition, I for one find it immoral and reprehensible that the committee is wasting so many resources on it and putting the public through yet another several years of distress.

Do the right thing - shut it down now. Deny the application because it will never be built. Stop wasting time and (our) money.

I also encourage all on this distribution list to read the NH State Constitution Bill of Rights <https://www.nh.gov/constitution/billofrights.html> - pay close attention to the words of Articles 1, 2, 3, 4, 7, and 8; then consider article 10 with this in mind. When you say you're just following "the law", I ask - what about this law, the highest law in New Hampshire?

Respectfully,

Cindy Kudlik

Subject: Northern Pass - Appropriate Use of Distribution List

Date: Fri, 1 Apr 2016 16:05:46 +0000

To: All Parties
NH Site Evaluation Committee Docket No. 2015-06
Application of Eversource and Northern Pass

From: Mike Iacopino
Counsel to the Committee

Re: Appropriate Use of Distribution List

If you received this email directly from me your email address is on the distribution list for the Northern Pass docket pending before the New Hampshire Site Evaluation Committee. This distribution list was created for the convenience of the parties. Its purpose is to be used when you file motions, objections or other pleadings with the Committee that are required by our rules to be circulated to other participants. This distribution list contains email addresses for all parties, Committee Members and Committee Staff. Please use it for its intended purpose.

The distribution list is not intended to be used to file public comments or for communication amongst the parties that does not involve the filing of documents with the Committee. Public Comments should be sent to the Committee Administrator for filing, distribution to Committee members and publication in the comment section of the web site.

The distribution list is not intended to be used as a means of communication amongst parties. First, the Committee Members are part of this list. The Committee Members should not be privy to communications between the parties. The Committee is legally obliged to consider only the evidence in the record of the docket. Second, the list contains all parties. When you use this list your communication is being transmitted to all of the parties in the docket. That means that your communications are being sent to parties that may be on the other side of the issues from you.

The distribution list is not designed to be a means to debate the issues in the case. That debate should take place in the testimony and exhibits, cross examination, legal memoranda and public comment all of which constitute the legal record for this proceeding and will be considered by the Committee. Please do not use this list for the purposes of communication with other parties or for the purpose of posting an argument for or against the project. (Feel free to peel out and copy those email addresses from the list that you find useful for communication but do not include Committee Members or staff in those communications.)

If you have any questions about the appropriate use of this distribution list please feel free to contact me to discuss.

Thank you,
Mike

Subject: RE: NPT and PUC

It should be noted that on the list of towns in the initial email from Kris, Easton and Plymouth have Community Bill of Rights Ordinances in place which outlaw Northern Pass. If every town on that list did, instead of scrambling to try to work in all of these regulatory hearings and whatnot, you could be working with Michelle Sanborn and Tom Linzey on a much simpler task - defending your constitutional rights.

I'm not saying this to criticize or demean what you're doing, just reacting to the sound of exhaustion I hear and suggesting an easier and ultimately more permanent solution.

Cindy

>> *Subject:* NPT and PUC
>>
>> For those who missed it, NPT has petitioned the PUC to cross public
>> waters in the towns of Pittsburg, Clarksville, Stark, Lancaster, Dalton,
>> Bethlehem, Franconia, Easton, Plymouth, Woodstock, Ashland, Bridgewater,
>> New Hampton, Hill, Bristol, Franklin, Northfield, Concord, Pembroke,
>> Allenstown and Deerfield.
>>
>> This is another agency and requires looking at another docket on another
>> site, sending letters to another contact and attending other meetings.
>> NPT maintains they have the right to cross (or burrow under) public
>> waters, despite not being for the public good, based on precedents that
>> may or may not be relevant to their "proposal."
>>
>> Since only Franconia has intervened (deadline 3/29) it seems likely word
>> did not get to those it should have. Perhaps envelopes are languishing
>> in boxes in town halls of small towns that only open once a week.
>> Strange with with NPT's consistent assertion that they are engaged in
>> dialogue with us, e-mails were not sent to Conservation Commissions, for
>> starters.
>>
>> Late intervention should be possible for those who have the energy to
>> fight two battles at once, while going about your daily duties.
>>
