**Subject:** SEC Docket 2015-06  
**Date:** Monday, August 15, 2016 5:04:57 PM

---

Dear SEC Committee Members,

It seems obvious by the applicant's repeated response to so many discovery requests that they've not determined many details of the proposed project yet, that the committee erred in accepting the application as complete. Allowing this adjudicatory process such a premature start is just a waste of time, money, and resources- many of them at taxpayer expense.

In the interest of doing your jobs correctly and respecting the people of New Hampshire you must declare this application incomplete and suspend the docket as was done with SEC Docket 2013-02. Hopefully the Eversource and HydroQuebec lawyers and stockholders will come to the same conclusion Iberdrola did - that we're not a bunch of dumb backwoods hicks they can lie to and steal from- and also cancel this project on their own.

Thank you,

Cindy Kudlik  
Grafton, NH
