To the SEC members,

I've received no response to my previous request for an accounting of time and money spent on this application as well as an explanation for it being accepted as complete when it obviously still is not. Perhaps one of the most recent Wikileaks

Podesta emails would help you to remember? <https://wikileaks.org/podesta-emails/emailid/13433>

The public would certainly accept a humble and sincere apology from you all, along with a decision to deny this application and stop wasting taxpayer money on it.

Thank you,
