**Subject:** Northern Pass Project Opposition

We are contacting you to voice our opposition to the Northern Pass project in NH.

I appreciate the value of renewable energy to secure our future as fossil free, there are clearly better options than creating a scar across the landscape of NH to benefit out of state interests. Out of state interests that bear no accountability to the character and charm that is New Hampshire.

As an owner of a home with a solar array, we are able to offset our entire electricity consumption with no additional power lines or cutting of trees. The damage caused by this project will be irreparable.

Please do all you can to block the creation of this power line across our state. Thank you for reading our concern.

Respectfully  
Mark and Linda Fisher  
213 Bear Hill Road  
Chichester NH 03258
