**To:** Monroe, Pamela

**Subject:** Northern Pass

If approval for Quebec's Hydro-Electric Northern Pass is OK's to march through the length of New Hampshire, then this state is DESTROYED. HVDC is not clean or green energy. Our own energy suppliers have ability to come up with solutions kif given the chance. We do not want or need international big energy. Their promises to us will not be kept. We will be left with a broken state and more taxes. The investors and Big Energy win. Sununu is not representing anyone but himself in this deal.

Mr. & Mrs. William D. Meyers  
North Haverhill, NH 03774
