Subject: Northern Pass

I am writing in opposition to Northern Pass. This project would destroy the last industry left in the North Country: Tourism. It would forever ruin the beauty of the North Country. You should vote NO & you KNOW IT! This project does not benefit our State. I have noticed secret meeting or meetings scheduled with little notice, ones that are cancelled at the last minute & made in a way to limit public input. You should be ashamed of yourself for not acting in the best interest of the citizens of our State. I recently read an article from the CEO of TransCanada talking about the great benefit of hydro power. How come TransCanada recently sold all their dams up and down the Connecticut River, if hydro is so great?...They are looking for a new stream of income, that's why! These greedy jerks are only interested in lining their own pockets & they don't care who or what they destroy in the process. VOTE NO! If you can't bring yourself to do what's right & you lack the conscience, make sure you insist on COMPLETE BURIAL. TransCanada, Eversource have the money to do this & it isn't as costly as they play it off to be. They will still rake huge profits while the ruin the way of life of the little guys just trying to survive in this difficult economic area. Janice Dube
