Subject: Northern Pass

Dear Pamela:

My name is Marianne Peabody, 3356 USRT 3, Thornton, NH 03285 603-726-3914.

I am a property owner along Route 3. where the proposed underground lines from the Northern Pass Project are to be running by my house.

My house sits very close to Route 3 it is considered to be one of the older est homes in the Town of Thornton. Records indicate it is close to 300 yrs old. I have many concerns regarding my waterline that is gravity fed from directly across property I own and runs under Route 3 and feeds into my home. My other concern is the house settling, chimneys and rock foundations cracking, along with high voltage lines being placed just a few feet from my house along with any other situations that may arise concerning this proposed project.

I would like my concerns to be placed on record.

Sincerely,
Marianne Peabody
