

Comment on denial by the SEC of the Pessamit petition to intervene in Northern Pass:

The interests asserted by the Pessamit are unrelated to the pending Application. The Pessamit failed to demonstrate that the Project, as opposed to the government of Canada or Hydro-Québec, will impact its rights, privileges and interests. Furthermore, the Pessamit are not a recognized tribal entity in New Hampshire and the Pessamit claims no ownership of lands in the State of New Hampshire. The Petition to Intervene fails to establish that the Pessamit has a substantial right, title, interest or other claim that warrants intervention. The Pessamit has no greater interest in the outcome of this proceeding than any other member of the general public.

The project is comprised of Hydro-Quebec and Eversource. Northern Pass would not exist without Hydro-Quebec.

The general public has not had their land, culture and means of subsistence decimated by Hydro-Quebec.

Fragmentation is the essence of profanity.

Inasmuch as the SEC operates within a mindset of fragmentation, the SEC proceeding are profanity
