Subject: Northen Pass and SEC antics

Dear Ms. Moore,

I am continually baffled and appalled at the way that NH is making its citizens vulnerable to the invasive and greedy demands of private (and foreign) companies. This is unacceptable for the "Live Free or Die" state, where we expect our government to protect our rights to live free without being subjects of a foreign or private power - IN OUR OWN BACK YARDS!

Please let the SEC know that they need to consider the WILL OF THE PEOPLE, including the towns that are involved, when private (or foreign) companies come knocking at the door of NH, and the SEC is the governing body that SHOULD be protecting NH's citizen's rights to our own private and public property.

Thank you,

Julie Moran
