**Subject:** Northern Pass Project

Pamela,

My name is Christopher Thompson and I own a piece of property in Stewartstown off of Heath Rd. I have taken the position as an intervenor opposing the Northern Pass project because I don't have a clear understanding on how this project may impact my property value. I was also concerned about how this project would affect the enjoyment that I experience relative to my recreational use of the surrounding RPI properties. I am happy to tell you that to date, RPI has treated me very fairly regarding accessing their acquired properties for my hunting enjoyment and ATV use....this despite being an opponent. I felt it important to express this to you.

Regards,  
Chris
