Dear NH Site Evaluation Committee,

My husband and I own a home along Rt 116 in Easton. We purchased this home in 2012. We love living in Easton and appreciate the beauty and pristine environment around us. I am writing to express my absolute opposition to the Northern Pass transmission project in general, and the plans to bury it along Rt 116 specifically. We have concerns about how the blasting would affect the foundation of our home, and our well, which serves our home and our neighbors home. We have decided that if this project is approved we will sell this house we love so much and move.

As someone who will be directly affected by this project, I ask that you do not approve the application.

Kind regards,  
Melissa Elander
