Subject: Northern Pass

Dear Ms. Monroe:

I am writing to urge you to oppose the Northern Pass project. The costs of this project far out weigh the benefits. Our state does not suffer from an energy deficit. We export 35% of the energy we generate into the grid. Eversource will not promise lower electric rates for New Hampshire consumers or even to keep them stable.

Of the jobs that might be generated only a few will be for New Hampshire residents and they will be temporary where as the negative impact on the environment and New Hampshire's scenic beauty on which it relies to attract tourists will be long lasting.

Far more people in New Hampshire will be hurt by this project than will benefit. I ask you to oppose it.

Thank you,
Danny Sims
