My husband and I moved here from Connecticut and New York. We chose N.H. because of it's beauty and Heritage. We love the outdoors - hiking and exploring all of the small towns and communities, especially in the North Country. We also go motorcycling up north, mainly for the back roads and the awesome views of the mountains. We have been to a lot of meetings trying to understand why Eversource would use N.H. as an extension cord to the lower southern states. The Towers they plan on erecting are enormous!!! If I had a "Say-So" I would totally reject this project. Others, a little more understanding proposed to Bury the entire line, not just a small portion. I say Bury the whole thing or forget about it completely. It does absolutely no justice for our State. Short term jobs, a lot of disturbance to the wild life, and a whole bunch of Ugly Monster Towers. No Northern Pass! Please be kind to this State - The whole East Coast is slowly loosing all of it's scenic beauty. Stop this Madness.....Linda Clark
