Subject: Northern Pass

Please do your best to end the Northern Pass project. I can't express my disgust at the carelessness of big businesses for the NH's natural resources and beauty. It's one of the least profitable projects for the everyday person and only serves to benefit a few rich people, who have nothing more in mind than their self-serving selfishness. How much money is enough for them? Tell them to please get out of my back yard, stay off my lawn, and get out of my still precariously beautiful state of NH once and for all.
