lease vote no on the northern pass installation. I grew up and continue to recreate in Coos county, and believe the pipe line will ruin the counties appeal irreparably.

The scenic and cultural values of New Hampshire's landscape that this 192-mile project would permanently scar, including by clear-cutting 40 new miles of right-of-way in Coos County, and building more than 1100 new steel lattice or monopole towers up to 160 feet high on existing right of way through 132 miles of New Hampshire.

The applicant has failed to consider alternatives that would avoid or minimize impacts to New Hampshire, such as burying all 192 miles within already disturbed transportation corridors.

Thank you for your time and consideration.

Brian Hanlon
