SECDocket	2015-06 Northern Pass Transmission - Eversource
CommenterName	David Schoenberg
CommenterCity	Redding, CT
DateReceived	05-17-2017

### CommenterWords

Keep new hamshires landscapes and scenery free from northern pass's obstruction of the horizon. Consider sponsoring renewable wind and solar and keeping any new transmission lines to already established transmission corridors and major transportation routes. In doing so, know you are securing the rural beauty of New Hampshire now and for future generations of visitors from Boston and NY. The future will thank you for it and merit the committee as visionaries of their time. Thank you, david
