### CommenterWords

I would like to register my opposition to the planned construction of transmission lines by Eversource, based upon the details that have been filed. As a taxpayer in New Hampshire I believe I have a right to be heard on this matter. While the route proposed may be efficient for EverSource, it is contrary to the key sources of value the state receives from being able to position itself for tourist and recreational spending, a growing source of revenues.

In addition, this planned development would create irreversible damage to a critical habitat in the north of the state. Transmission lines can be built in many places, but we have few remaining areas of relatively unspoiled forest and ecosystems - again important sources of economic growth.

Thank you for considering my statement regarding this matter.
