As long time AMC members, throughout our lives we have enjoyed hiking, cycling and traveling in New Hampshire, especially in the mountains. Do not sacrifice the scenic beauty of Coos County by permanently scarring the landscape, including clear-cutting 40 new miles and damaging the view shed with steel towers.! Tourism (in this relatively undeveloped and remote) contributes greatly to the state's economy but the natural lands must be preserved and protected.

We urge you to require Eversource to purchase 192 miles of already disturbed land for the Northern Pass transmission line in support of the 31 out of the 32 communities along the project's proposed path that have voted to oppose the project. The people have spoken!
